

Neck Freak

Therapy?

When you go you take part of me with you
Leave me shakin' no longer whole
This is something that I can't wait for
This is something that I can't have I'm just dreaming of your breathing
[Unverified] I'm fucked My body is shaking like cables
Everything is turning gray [unverified]
I'm wasted and washed out and worried I can hear you breathing [unverified]
I'm just dreaming of your breathing
[Unverified] I'm fucked I hate it when she makes me feel
She tears strips off me, crippled, lost and vulnerable
Every time I think of you [Unverified] I'm fucked
