

You Know More Than I Know

[John Cale](#)

But us, like other angry whores
Discuss what threats were made before
You don't need them anymore You know more than I know
You know more than I know
You know more than I know Instead we read the morning news
In bed, what endlessness ahead
And there's no more to be said You know more than I know
You know more than I know
You know more than I know The blind may see but stay behind
Relief of all liability and greed
And there's nothing more you need You know more than I know
You know more than I know
You know more than I know No one listens to it
They don't believe it
But it's the only way for me You know more than I know
You know more than I know
You know more than I know What crap, old chap, fills up the gap
We set like traps, like traps for us, the rats
And there's nothing more to catch You know more than I know
You know more than I know
You know more than I know Then bury me deep down among the weeds
That creep into the hearts of all the weak
And there's nothing more so weak You know more than I know
You know more than I know
You know more than I know
