

# Alright OK

## The Sheepdogs

I'm gonna get this old bag of bones  
And make my own right on  
Make my own right on  
I said I'll make my own right, right on I said I think this old bag of bones  
He makes his own right on  
Creates his own right on  
I guess I'll make my own right, right, right, right on Going no where  
Going no where  
Going no where
