

Deal Goin' Down

ZZ Top

When the deal goin' down
And you gonna take your chance
There's always just a mystery
That locks you in a trance No matter what the future brings
You're booked and lawd, you're bound
Be steppin' softly when you know
The deal is goin' down When the deal go down
And the noose is bein' tied
Ain't no gettin' round it
Fade back and let it lie No matter what the future brings
You're booked and lawd, you're bound
Be steppin softly when you know
The deal is goin' down
