

Perfect

Christina Milian

Hello, old friend
I never thought that I would see you again
Do you remember all of the time that we spent
So tell me why it came to an end
So now I'm hopin' maybe we could hook up and
Reminise, start again
I know you miss me holding your hand
So runnin' into you ain't be chance, so let's just
Spend a little time just me and you
Hang out, hook up, just us two
You feelin', I'm feelin' you
We're perfect for each other
'Cause we've known each other from before
We're friends but now we want much more
Won't hesitate 'cause now we're sure
We're perfect for each other, baby
Have I been on your mind?
'Cause I've been thinking 'bout you all of the time
You left a big impression baby on me

I know you want the same thing I see
But don't you worry 'cause it's standing right here
And we can still do all the things that we did
Like all the foolish silly games that we played
Just think about it baby we got it made, so let's just
Spend a little time just me and you
Hang out, hook up, just us two
You feelin', I'm feelin' you
We're perfect for each other
'Cause we've known each other from before
We're friends but now we want much more
Won't hesitate 'cause now we're sure
We're perfect for each other baby
I, oh I
Think that you should know I'll never let you go
And I, and I
Will stay true, will stay true to you
