Promise to Try

Leona Naess

All the shadows have made ladders
And all that mattered, yes all that matters
Is lifted from view
As I'm gazing at stars
Counting parked cars
I can't stop missing youSo leave the light on
I know you think I've gone
Let time go
Let the rivers flow you back to me
As we're living our own days in our old fashioned ways
I'm silently with youRound and round is where we go
And where we stop nobody knows
A drunken dream or broken seam
It doesn't matter how you find me
My arms are reaching for you
And my lips are waiting to adore youI promise to try
All the songs we listen to me
It won't escape me, please don't escape me
Baby, I'm bound for you
As letters hit my door and my arm hits the floor
Can you prove that I'm wrong?Round and round is where we go
And where we stop nobody knows
A drunken dream or broken seam
It doesn't matter how you find me
My arms are reaching for you
And my lips are waiting to adore youPromise to tryPlease don't die, I promise to try
Please don't die, I promise to try
The world is much better with you in it
World's much better with us in itRound and round is where we go
And where we stop nobody knows
A drunken dream or broken seam
It doesn't matter how you find me
My arms are reaching for you
And my lips are waiting to adore youPromise to tryRound and round is where we go
And where we stop nobody knows
A drunken dream or broken seam
It doesn't matter how you find me
My arms are reaching for you
And my lips are waiting to adore you
