

# The End

## Groove Coverage

My home is in motion as darkness unfolds  
The air overloaded, the sky stands in gold  
But you went away, you left me to stay  
We'll see us in heaven, I'm counting the days  
At the end of time, at the end of us  
At the end of everything we had  
Only faith helps you, only grace can do  
Only you can take the pain 'Cause the end of peace is the end of life  
And the end of any happiness  
Only love helps you, only trust can do  
Only you can take the pain of me  
When thunder is calling I feel so alive  
The very first morning, can you see the light?  
But you closed the door, to what I adored  
We'll see us in heaven, I'm counting no more  
At the end of time, at the end of us  
At the end of everything we had  
Only faith helps you, only grace can do  
Only you can take the pain 'Cause the end of peace is the end of life  
And the end of any happiness  
Only love helps you, only trust can do  
Only you can take the pain of me
