

# 21st Century

## Oxymoron

Let gratify your inmost desires  
click it on ?that all you must do  
and right on your screen there porno queens,  
all the rest youe dreamed of, too.  
Or check (out) the ultimative site where your need satisfied  
is this a brave new world for you  
while there the KKK and a(nother) fascist regime  
lurking out there still next door[Chorus:]  
In their factory of lies (Luck for sale)  
luck for sale low price (Luck for sale)  
trouble-free and multi-coloured  
your chance, you wannabe  
... this is the 21st CENTURY(Now) you can run free all fantasies  
no more boundaries left for you  
Get off on all kinds of perverties  
and a death cell web cam, too.  
What a glorious life, it so easy and safe  
as anonymous voyeur  
but it all bollocks to me I like to smash my TV  
let alone the ads they show[Chorus:]  
In their factory of lies  
everything so multi-coloured  
A consumer paradise  
who thinks of poverty
