

Nothing In This World

Sunny Crimea, Derrick & Tonika

Love ended here today and the dreams we used to share
I watched you walk away as you told me you still cared
Now I can't believe you're gone, how could you say, "Goodbye"
You told me you would never make me cry
You said
"Nothing in this world would come between us"
No way you'd ever let me go
No no
Nothing in this world would come between us
What did you know?
What difference does it make if I understand?
The promises we break are never what we planned
'Cause we plan to stay together 'til forever then
Now forever has come to an end
You said
"Nothing in this world would come between us"
No way you'd ever let me go
No no
Nothing in this world would come between us
What did you know?
You said, "Goodbye"

You said, "Goodbye"
I hear it echo through this empty place inside
Let it rain just let it rain
'Cause there's nothing left between us
But the lonely days
You said
"Nothing in this world would come between us"
(Nothing in this world)
No way you'd ever let me go
No, no, no, no
(No, no, no)
Nothing in this world would come between us
What did you know?
(What did you know?)
Nothing in this world would come between us
(Nothing in this world)
No way you'd ever let me go

No, no, no, no
Nothing in this world would come between us
What did you know?
(What did you know?)
