

Unity

311

Even if I cared to try, I
I couldn't please them
Their petty complaints, stupid restraints
Ain't gonna work, it's all too cheese and
Regret, don't fret, just push it away
And say, "I'm like the wind"
Relentless and irritatin'
A position that I think worth statin'
Swing, I'm doin' my thing
Groove, I'm showin' and provin'
That maverick deal, that makes you feel ill
It runs in my family
Fussin' and cussin' an' bitchin' and kickin'
If you ask me I think that you're just chicken
To try, if you don't [Incomprehensible]
Remember I said it, "One day you'll regret it"
Oh, God, I can't believe it
You have asked and so you shall receive it
In the ear, victory draws near, but no fear, my dear
I'll be here another year, that's right
What's it all about?
I scan a new plan for the next year
In nineties, try these
You wanna just bust out
I cool out and I'm done bein' mad
To just know hate, well that's so sad
What a life, strife, backfire in your face
No disgrace, come on like
Word, they come like a herd
But they said we'd drop like
A Led Zeppelin in your face
But that's nothin' home team
I ain't got to my ace in the whole yet
Bet that I will, get my fill, get my thrill
We'll be back one day and we'll try not to spite
But until then you stay out of my sight
Oh, God, I can't believe it
This groove's so dope, I'm about to have a fit
And here's a flash, I freaked so hard I got whiplash
And when it comes to writin', stay away from our stash, come on
Swing, I'm doin' my thing
Groove, I'm showin' and provin'
That maverick deal, that makes you feel ill
It runs in our family
Stoppin' an' goin', an' lyin' an' trying'
My brain is on fire, feels like I'm flyin'
Through space, yes, doin' my best
But it'll get better, this much I confess
Oh, God, I can't believe it
But when this era's through, I'll say, "That's it"
Edification will take place

Pull up the reigns and get out of the race
My bros are down for the unity
311 is down for the unity
Unanimity of the unity
That's right
