

Not Enough

Holly Drummond

VERSE 1:

when i look at our picture on the wall
it reminds me we were happy once
we thought our love could rule the world

but it was not enough
i wish that we could forget the days
those days when we called it love
so reckless with our words
but they were not enough

CHORUS:
we were lost in our fantasy
our vision of the world

but all was not as it appeared to be
we were not enough

Oooh...VERSE 2:
there were days when we thought it would never end
that things would never get tough
oh how naive we were
we were not enough
