## The Word Alive

Were here to fight.  
Were here to die.  
Were here to save your life.  
What do we say, when our backs are up against the wall?  
The empire remains, and it will always.  
Weve come from all over the world.  
We are the ones who stand as one. (Side by side)  
If any man here fear their demise, then weve already lost.  
Were here to save the world.  
And above all else, well hunt the ones  
who seek to destroy it.  
Youre not alone, cant be defeated.  
Well protect you, when all others fail.  
Tell me now, what would you give up?  
My family, friends for a brotherhood.  
Who stands to gain if we survive?  
You probably werent born just to give your life.  
Welcome to my life.  
If you make it through today,  
You might survive.  
And above all else, well hunt the ones  
who seek to destroy it.  
Youre not alone, cant be defeated.  
Well protect you, when all others fail.  
I cant believe the cost of what is right.  
Reach for the light.  
Know that we are here, well always survive.  
If you come ill prepared to die,  
Youve already lost.  
If you come here and you give up.  
Youve already lost.  
Lost the fight.  
You might survive.  
You might survive.  
Welcome to my life.  
You might survive.  
You might survive.  
And above all else, well hunt the ones  
who seek to destroy it.

You're not alone in the world, were the night's eyes.

We'll protect you, when all others fail.

I can't believe the cost of what is right.

Reach for the light.

Know that we're here and we'll always survive.

You might survive.

You might survive.

Welcome to my life.

You might survive.

You might survive.
