

She Is My Lady

Donny Hathaway

I've learned to live for the sound of her laughter
Her sunny smile is my only light
To love her now is the sole thing that I am after
I'll make her melody my lifeShe came to me when I knew I'd lost the meaning
Lifted the shadow from across my way
She touched my heart with the sweet song she was singing
Brought back the sun into my daysOh she is my lady
I'm a witness to the wonder of her ways
Oh she's my lady
The solitary reason for my daysAnd sometimes when my burdens just seem too overbearing
The girl turns my tears with a single sigh
She taught me love and through love we both learned sharing
Right now she's every, every reason whyOh she is my lady
I'm a witness to the wonder of her ways
Oh, oh oh she's my lady
The solitary reason for my days, oh ohOh I don't have to worry 'cause she's my lady, oh
She is my lady, yes she is
And the with this goes the wonder of her ways
I'm so thankful she is my lady yes she is
My one and only reason for my days
Won't you help me say itOh she is my lady, she is my lady
I'm a witness, yeah oh
My one and only reason yeah
