Somewhere Else (In Passing)

Ikon

The sensation enter the feeling
You've come too close but don't move away
I feel uneasy as if too close
I see you watching every move I makeAnd as I watch from a far
I see it appear before meWe are somewhere else
There is something more
This is a dying moment
Make it all lastA mental image of what I've become
Some sort of reaction, only if I could
I watch from a distance for what I don't know
It's an awareness of something moreAnd when it comes
I am sure, I will knowWe are somewhere else
There is something more
This is a dying moment
Make it all lastAs this moment comes to an end
And fades from my mind
I will take a last breath
And try not to forget all that I amAnd in the end
It will all fall into placeWe are somewhere else
There is something more
This is a dying moment
Make it all last
