

Forever

Blackhole

Every time I see your face,
I want to put you in your place,
You'll never be the people you see,
Let's face it; you'll never be me.
I know you'll stand alone.
I know you'll die alone.
Forever means forever,
You can't change your mind just like that,
Stick with what you really feel.
Every time I see your face,
I want to put you in your place.
You'll never be the people you see,
Let's face it; you'll never be me.
I know you'll stand alone.
I know you'll die alone.
Forever means forever,
You can't change your mind just like that,
Stick with what you really feel.
The police line the streets for you and me,
This time round everyone will fucking see.
You're just another whore.
You don't mean anything anymore.
You're just another fucking whore.
