

Voodoo Doll

Kill Devil Hill

Burning brighter than a thousand candles
Lighting up the night
Round and round there's no escape
Pulls the needles from my eyes
The pain is such sweet pleasure
With a body so hot and heart so cold
The road's what ruins one hell of a ride
Sister of sin, I'm bound to give in
She's a dirty little Voodoo Doll
I'd make a deal with the devil girl
Just to taste those wicked liWs
Savor the sweet temptation
Until it reaches fever pitch
Follow you blackened finger
Until we touch the sky and set our souls on fire
Filthy little one track lover
Why do you keep on haunting my mind
Sister of sin, I'm bound to give in
She's a wicked little Voodoo Doll
Cut you in half, then look back and laugh
She's a dirty little Voodoo Doll
Sister of sin, I'm bound to give in
She's a wicked little Voodoo Doll
Cut you in half, then look back and laugh
She's a dirty little Voodoo Doll
Sister of sin I'm bound to give in
Cut you in half
