No Parachute

Stephanie Quayle

My Hearts been locked up safe and sound
I kept my feet on solid ground
Always been cautious until now
But you bring out the danger in me
So I donâ€™t want to wait and see

Chorus:
Iâ€™ll jump if you jump if you jump with me
Ready, set, go on the count of three
It feels right, why wait another moment
Just hold your breath and take that leap
Donâ€™t want a safety net, Iâ€™m diving off the edge
And falling into you, with no parachute

Iâ€™m getting caught up in this rush
Never wanted something so much
Iâ€™m more afraid with every touch
Even though Iâ€™m scared half to death
I canâ€™t wait for what happens next

(Chorus)

Donâ€™t even think to break my fall
Cause when I crash I want to feel it all

(Chorus)
No parachute
