

We Should Be Through

Mikael Saari

You see, I stand on my two feet
And all I try I succeed, I am no clown
Now I do just what I like to do
I dont have to fight, I just wear my crown

But when I lay myself down
Im more than alright, cant you see my smile?
And why shouldnt I, of all these people around?
And that girl, she keeps me sane in so many ways
That would make you frown

When I lay myself down
When I lay myself down
When I lay myself down

We should be through
We should be through
But I throw myself at you
And I cant go on
Because you keep me holding on
