Synthetic Sunshine

Worn-Tin

Synthetic Sunshine

(1st Verse)

Synthetic Sunshine, I think that your mine

Shine through my day just to keep me awake

I feel your complexion, you keep me guessing

If youâ€™ll shine through those clouds like a pin striped wheel

(Chorus 1)

Donâ€™t Go, your makin me happy

Youâ€™re like the greyhound that speeds in the dark

Now you may not be real but you show your affection

So come closer but that may be to hard

(2nd Verse)

Synthetic Sunshine, I think that your mine

Carry me to a place I once knew

Melt in my ceilings, Gosh what a feelin

(Chorus 2)

Now, My brain is open for business

And I seem to know which way I may go

Thereâ€™s no telling who will wood in the fire

But lets go home if thereâ€™s never any light

(Bridge)

Hang me to dry, pulling pills through my eyes

Take a long hard look at the sun-drinking ocean water

Itâ€™s a baby step, thereâ€™s a little left of this nightmare left to go

Fixated on the steps a couple left just take a breath it was 50 years ago.
