A Natural Disaster

Anathema

Its been a long cold winter without you
I've been crying on the inside over you
You just slipped through my fingers as life turned away
Its been a long cold winter since that dayAnd it's hard to find, hard to find
Hard to find the strength now but I try
And I don't want to, I don't want to
I don't want to, want to speak now of what's gone by'Cause no matter what I say, no matter what I do
I can't change what happened
I can't change what happened
No matter what I say, no matter what I do
I can't change what happened
I can't change what happenedNo matter what I say, no matter what I do
I can't change what happened
I can't change what happened
No, no you can't change
Just slipped through my fingers
And I feel so ashamed
You just slipped through my fingers
And I've failed'Cause no matter what I say, no matter what I do
I can't change what happened
I can't change what happened
No matter what I say, no matter what I do
I can't change what happened
I can't change what happenedNo matter what I say, no matter what I do
I can't change what happened
I can't change what happened
No, no I can't change
Just slipped through my fingers
And I feel so ashamed
You just slipped through my fingers
And I've failedYou just slipped through my fingers
And I feel so ashamed
You just slipped through my fingers
And I've failed
You just slipped through my fingers
And I feel so ashamed
You just slipped through my fingers
And I've failed
