

Out of My Hands

Green River Ordinance

We were young and wild and free
Fighting in the love we couldn't leave
Even on the way down
Even on the way down You were standing there in your bare feet
See it in your eyes you wouldn't leave
Even on the way down
Even on the way down It's out of my hands, breaking your heart
Letting you go and it's my fault
Fooling ourselves, there's no easy way out
When is it over now? So many lines we tried to draw
Anything there to break the fall
Even on the way down
Even on the way down You were the one who always said
Don't let the doubts go to your head
Even on the way down
Even on the way down It's out of my hands, breaking your heart
Letting you go and it's my fault
Fooling ourselves, there's no easy way out
When is it over now? So many things that I should say
If it even mattered anyway
The war has long been lost
Two sad souls that can't count the cost But love is just an open flame
We burn ourselves just to feel the pain, no
When is it over now? When is it over now?
Over now, over It's out of my hands, breaking your heart
Letting you go and it's my fault
Fooling ourselves, there's no easy way out
When is it over? When is it over now? When is it over now?
When is it over now?
When is it over?
