

# Homework

## Big Deal

Can't do my homework, can't concentrate  
It's ruining my grades, I can't think straight  
Can't do my homework, it's all too late  
It's ruining my brains, I can't sleep We stay up way too late to pay  
Our dues, I told you  
Swollen eyes and tired tongues Where have your clothes gone, why are you late  
When you're not around, I suffocate  
When all is hopeless, when all else fails  
You've ruined my ending, It's ruined I know there's not much you can count on  
So always count on me  
You know there's not much you cannot touch  
So hold me, don't scold me Don't hate my guts, it's not my fault  
Don't hate my guts, it's not my fault you're gone Can't do my homework, can't concentrate  
It's ruining my grades, I can't think straight  
Can't do my homework, can't concentrate  
It's ruining my grades, I can't think straight
