

Greatness (Preditah Remix) [feat. Kozzie]

Tanya Lacey

Out of sight and out of mind
i let you go without a fight cause
i knew back then we had to part ways
nothing more to do left to do nothing left to say
but if there is one thing that ive learnt
you can cross the bridge burnt
cause i'm done with the hurt i'm done with the pain
and in my heart you've still got a place, yeahhchorus;
when you've been through so much
and it's still not enough you got to get through the tough
cause it's all for the lovee
if i change that heartache change that mistake
i know i'll do it all again
i would never trade places flip the name of faces
my life was meant for greatness
if i change that heartache change that mistake
if i could take back all the tears ive cried
and every time i had to tell you bye bye
i would never trade places flip the name of faces
destination is greatnesshad control but lost it all
gotta get back up anytime you fall
cos id be dammed if i let things get to me
gotta switch it up yeah its up to me
lead the way to what you want
follow your footsteps, keep keep it on
if you know that you just cant be apart
go and get your love listen to your heart yeahchorus;
when you've been through so much
and it's still not enough you got to get through the tough
cause it's all for the lovee
if i change that heartache change that mistake
i know i'll do it all again
i would never trade places flip the name of faces
my life was meant for greatness
if i change that heartache change that mistake
if i could take back all the tears ive cried
and every time i had to tell you bye bye
i would never trade places flip the name of faces
destination is greatness
