

Hurt That Body

Donnie Klang

She on it, I want it
She doin' that shit, how can I ruin that shit?
Explodin', she noticed
She got me waitin', I'm so impatient
Girl make me the one that rocks your body away
Rocks your body away
'Cause I want to be the one that puts your body in its place
Put your body in its place, strip down
Girl hurt that body, hurt that
Till I figure this out, uh, huh
Girl work that body, work that
Till you figure me out, uh, huh
Girl hurt that body, hurt that
Till I figure this out, uh, huh
Girl work that body, work that
Till you figure me out, uh, huh
She on me like pony
She poppin' that shit, I ain't stoppin' that shit
Her main complexion, perfection
Under the ultraviolet she wildin' out
Girl make me the one that rocks your body away
Rocks your body away
'Cause I want to be the one that puts your body in its place
Put your body in its place, strip down
Girl hurt that body, hurt that
Till I figure this out, uh, huh
Girl work that body, work that
Till you figure me out, uh, huh
Girl hurt that body, hurt that
Till I figure this out, uh, huh
Girl work that body, work that
Till you figure me out, uh, huh
Slow it down, do that for me slow
Don't stop, baby give me more
You know that you want me
But I want you closer than close, oh baby girl
Get up on me, yeah
Get up on me, yeah
Get up on me, yeah

Get up on me, oh
Like that
Get up on me, yeah
Get up on me, yeah
Get up on me, yeah
Get up on me, oh
Like that
Girl hurt that body, hurt that
Till I figure this out, uh, huh
Girl work that body, work that
Till you figure me out, uh, huh
Girl hurt that body, hurt that
Till I figure this out, uh, huh
Girl work that body, work that
Till you figure me out, uh, huh
Girl hurt that body, hurt that
Till I figure this out, uh, huh
Girl work that body, work that
Till you figure me out, uh, huh
Girl hurt that body, hurt that
Till I figure this out, uh, huh
Girl work that body, work that
Till you figure me out, uh, huh
