To Fall In Love

Ian Van Dahl

Hearts can be broken Love turns into pain Eyes can be blinded Love fades away
Why don't you see Why don't you see
Hearts can be broken Love turns into pain So can you give me A reason to fall in love
Words can make you cry When they say goodbye Why don't you see So can you give me A reason to fall in love

To fall in love
Maybe it's time to fall in love again Something about the way you look tonight Maybe it's time that I take my chances And open up my heart inside
Maybe it's time to fall in love again Something about the way you look tonight Maybe it's time that I take my chances And open up inside
To fall in love A reason to fall in love
