Bye, Bye Baby

Carol Channing

Bye, bye, bye, baby, bye, bye
I maybe seein' you around
When I change my livin' standard and I move uptown
Bye, bye, baby, bye, byeSo long, my honey, so long
Too bad you had to drift away
'Cause I could use some company
Right here on this road, on this road I'm on todayI get the feelin' I could chase you clean on in the ball
And wind up stayin' pull off, put down strung out and stalled
Honey, I ain't got time to wait on you or to fetch your super ball
I've got lots of things I've got to doI know that you got things to do and places to be
I guess I'll have to find the thing and place for me
I may wind up in the street or sleep beneath the tree
Still I guess you know, honey I've gotta goBye, bye, bye, baby, bye, bye
I guess you know you're on your own
It seems you just got lost somewhere out in the world
And you left me here to face it all aloneYou left me here to face it all alone
You left me here to face it all alone
Bye, bye, baby, baby, bye, bye
