

Midnight Sun

[Kate Boy](#)

[Verse 1]

We keep our head in the blazing light
Let the rays shine through our mind
Memories of never-ending days
And the rush we can't escape[Pre-Chorus]
Always chasing a forever
Where we will never see the Sun go down
Always dreaming in December
Of the moment that we have right now[Chorus]
So meet me under the midnight sun
Meet me under the midnight sun[Verse 2]
We lose our head in the Stockholm sky
Black and blue under heart-pink nights
Feel the freedom, we're wide awake
From the cold, clear, coloured rays[Pre-Chorus]
Always chasing a forever
Where we will never see the sun go down
Always dreaming in December
Of the moment that we have right now[Chorus]
So meet me under the midnight sun
Meet me under the midnight sun[Bridge][Chorus]
So meet me under the midnight sun
Meet me under the midnight sun
