We'll Always Be Friends

The Brady Bunch

I can always run to you and say what's on my mind
And if I ever go away you know I'll be back sometime.

Refrain:
You and me, we'll always be friends
We'll always be friends, yeah we'll always be friends
You and me, we'll always be friends
We'll always be friends, yeah we'll always be friends.

Sometimes when I just can't sleep, I call you on the phone
You never ask me where I've been, it doesn't matter what I've done.

Refrain

I saw you with someone today, you looked happy like you should be
But if you ever need a friend, you can count on me.

Refrain
