How'd you do that?
I can't describe the way it makes me feel
It threw me off trackUntil your kiss, I had nerves of steel
Your lips just seem to fit me
All this love is makin' me dizzyI knew, I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined thisI wasn't ready the way you touched me
Scared me half to death
Have mercyBut not enough to let me catch my breath
I dreamed of us together
But this dream is even betterI knew, I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined thisOh, when we're doin' this
This feeling is overwhelming
When I think it's as good as it gets
It's so good, nothin' can help meI knew, I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined thisI knew, I was gonna see fireworks
The gates of heaven and emotional bliss
Thought I had a great imagination
But I never imagined this
