A Place for Me

Green Carnation

I'm covered up with time
The only one you'll find
I gaze beyond the words
We'll find it all somehow
Just leave the rest to meYou're on to something new
There's a false and there's a true
It lingers in your mind
Can you find a place for me?
And ignore what you've denied
For so long Denied for so longTwisting and turning
I'm going for the same direction turning
Misguided by imagination turning
Underneath surface I rest
Twisting and turning
I'm going for the same direction turning
Misguided by imagination turning
Underneath surface I rest
