

Raindrops

Fytch

You left me here to cry
You hurt me deep inside
The night goes on
And I can tell that I won't make it through alone
Let me fly into the moonlight
Just give me space to breathe
Let me see inside the darkness
Just to wash away the fear
The cold surrounds me now
In this sea of lies and doubts
A moment life's about
It's quiet now, all I hear is raindrops

Raindrops [x3]
All I hear is raindrops
Raindrops [x3]
Quiet now, all I hear is raindrops

Let me fly into the moonlight
All I hear is raindrops
The cold surrounds
It's quiet now, all I hear is raindrops
Lies and doubts
All I hear is raindrops
[shuffled]

Raindrops [x3]
All I hear is raindrops
Raindrops [x3]
Quiet now, all I hear is raindrops

Raindrops [x3]
