

Ready To Roll

Jet Black Stare

Fast lane through a hurricane
Open road and I'm ready to roll
Put the pedal down right away
Red line and I'm givin' it more City lights are burning bright behind me
Top down, I push it to the floor
Street signs and the center lines spinning
Burning hot, I feel like I'm ready to roll Takin' off like a jet plane
High speeds and she's ready to go
Fuel burning like a freight train
Red line and I'm givin' it more City lights are burning bright behind me
Top down, I push it to the floor
Street signs and the center lines spinning
Burning hot, I feel like I'm ready to roll Give me room to run
One more road I'm on
Give me room to run away
I feel like I'm ready to roll Fast lane through a hurricane
Top down on the highway
Takin' off like a jet plane
Red line and I'm givin' it more Street signs and the center lines spinning
Burning hot, I feel like I'm ready to roll Give me room to run
One more road I'm on
Give me room to run away
I feel like I'm ready to roll I feel like I'm ready to roll
