

Los Angeles

Patent Pending

She said Los Angeles has never been so cold
she said we shouldn't even bother
she said the way things have been going we've been showing signs of getting better
get her let her know that there is no more time
and that no one ever said forever
leaves you any time well I'm lost so please get me out of here.
You've gotta be kidding me,
this is killing me,
won't let you throw away this chance of a lifetime,
you and me are so blind.
I'll say nothing
cause there's nothing nice to say this
quick before it loses meaning,
I've lost control and I'm screaming (I'm screaming), screaming out loud. I said Los Angeles was eating at her
soul
she said i sound more like her father. we've been showing signs of getting better
get her let her know that there is no more time
and that no one ever said forever
leaves you any time well I'm lost so please get me out of here.
