

Say That Shit (Prod. By Sonny Digital)

Tory Lanez

(Verse)

You don't luv me, you just say that shit
You just say that shit to fuck at me
Or look at me, I miss you girl
Damn, I really wish you wouldn't say that shit
Cause I swear that every time you say that shit
Swear we move in slow motion, I don't know how to control it
When you say that shit
I don't know if you luv me or it's nothing
Let me know because it's all, you see(Chorus)
The way you say you luv me but I know you really hate me
It's all how you say that shit
You don't really luv me, you just learn to tolerate me, look
It's all how you say that shit
I hear you gon' move in distance
You gon' tell me that we different
But that's all that you say
You don't really luv me, you just learn to tolerate me
And it's all that you(Verse)

Luv a nigga, talkin' rollies that you have expenses, fuckin' niggas, look
I made my mistakes, to the ones I'm stuck, I'm stuckin' wid 'em
Reason why I'm stuck here wicha shit, don't really, fuck it!
Changed a nigga since last time I saw you
We just tryna be honest a second, a week and I'll ? you
You just, all of yo feelins, you started to tellin' me
All of yo business, and that's when you under it
Gotta get money, I'm sorry I'm selfish, I'm sorry I'm selfish
I'm so, damn, I'm saying too much
Am I sayn too little, are you in the middle?
I'm playn too much
Yeah, left this world and say that shit
And if it's not I keep it realest, say that shit(Chorus)
The way you say you luv me but I know you really hate me
It's all how you say that shit
You don't really luv me, you just learn to tolerate me, look
It's all how you say that shit
I hear you gon' move in distance
You gon' tell me that we different
But that's all that you say

You don't really luv me, you just learn to tolerate me
And it's all that you(Verse)
Told her I'm runnin' a mission
No lovin' just money attentions
Oh, now here you come with this bitchin'
I know where it's going I know where it's ending
Fuck it! Let's skip all the arguing
And harvest this shit into something that benefit
All of my bitches that wanna get mine
Betta stay with me on the low
I need a comfort, I am not talkin'
The one that sit back of the bed
When I sleep on the row
They keepin' all the secrets, you know that I got
Women I keep on the low
You know we move thru the city like general pimpin
While women just creep on the low
Me? I'm just rollin' 'em ova, mine soon will be finished
Relationship turnin' into somethin' that grow
Coulda been makin' somethin', I coulda been fussin'
But makin' this luv is like fuckin' a bag on this pleasure, tho
I made mistakes and made that shit
You say you luv me, say that shit, don't say that shit(Verse)
You don't luv me, you just say that shit
You just say that shit to fuck at me
Or look at me, I miss you girl
Damn, I really wish you wouldn't say that shit
Cause I swear that every time you say that shit
Swear we move in slow motion, I don't know how to control it
When you say that shit
I don't know if you luv me or it's nothing
Let me know because it's all, you see(Chorus)
The way you say you luv me but I know you really hate me
It's all how you say that shit
You don't really luv me, you just learn to tolerate me, look
It's all how you say that shit
I hear you gon' move in distance
You gon' tell me that we different
But that's all that you say
You don't really luv me, you just learn to tolerate me
And it's all that you
