

# The Cross

## Ektomorf

This is my cross  
And I can't change it this is mine  
I got the strength  
To live with  
All my mistakes and demons  
I try so hard to refuse and avoid  
The chance to fall  
I hate this now my weakness  
It takes me to the edge

It's multiplies in my blood  
I can't control it anymore  
Control it anymore

I - I stay alive  
I will be stronger  
Bring me torture  
I - I stay alive  
When I bare the cross

I - I stay alive  
I will be stronger  
Bring me torture  
I - I stay alive  
When I bare the cross  
My cross

I take it back  
This is mine and I won't sacrifice  
All my life for something to someone  
Who lives on lies  
I have my cross to bear to bear through my life  
This is the dark the unknown the curse I have inside

It's multiplies in my blood  
I can't control it anymore  
Control it anymore

I - I stay alive  
I will be stronger

Bring me torture  
I - I stay alive  
When I bare the cross

I - I stay alive  
I will be stronger  
Bring me torture  
I - I stay alive  
When I bare the cross  
My cross

Sweet darkness  
Temptation  
I can't refuse  
The cross  
Can't you realize it? that I'm suffocating from you  
You made my life a fucking hell!!!
