

Kiss the Judas

Fury In the Slaughterhouse

She took you up to the seventh cloud, you had time to fall
Is it that what you've been dreaming of
A promise big as the universe and all the best for free
She ripped you off just when you fell in love I know how it feels, I know how it hurts
It's the disappointment that makes you feel so sad
I know you can top it, I know that you will
A smile in your face, one last embrace
To kiss the Judas, to kiss the Judas Mom is dead and dad's in buffalo, a long way to go
You paid the ticket but she does not come back
Enjoy a night under candlelight, if you pay the check
Her lips so red and the future looks so black
