

# Better Be Heaven

## Stars

This is the seventh time  
and I've got seven reasons  
And almost every time  
It ends up in you leaving Just give it one more chance  
It's all about the trust  
Don't close your eyes at night  
Until our mouths have kissed I'll count the steps to happiness  
I've missed  
They go One's the touch  
Two's the feeling  
Three's the answer  
Four the meaning  
Five and six are the Devil's kicks  
So seven better be heaven I saw turn to him  
As the last guests were leaving  
And then you caught my eye  
Bowed your head in grieving  
And say One's the touch  
Two's the feeling  
Three's the answer  
Four the meaning  
Five and six are the Devil's kicks  
So seven better be heaven (x2)
