

# Priority

## Mos Def

Hey, top priority  
Peace before everything  
God before anything  
Love before anything  
Real before everything  
Home before anyplace  
Shoot before anything  
Style and state radiate  
Love power slay the hate  
Truth killer, flakey face  
Players say it to they face  
Ain't afraid to major straight  
Race at the table straight  
Flow greatest like the greatest lakes  
Capes all greatest states  
Quiet water major waves  
Steer the course make a way  
And come ashore on a greater day  
Home grown from the greatest grain  
Full flavor in the native strain

Now put that on your brainy brain  
Full exposure to favorite slang  
Minimal wage and major gangs  
Y'all seen them play the bait  
Later night from day to day they came to play  
We came to stay get out the way  
Biotch sons buy heat rocks  
Brooklyn finest, preservation to beat box  
[Incomprehensible] detox  
When we rock the people [Incomprehensible] priority  
Peace before anything  
God before everything  
Love before anything  
Real before everything  
Home before anyplace  
Shoot before anything  
Style and state radiate  
Love power slay the hate, priority

Love power
