

Black Gold

Norther

if a fish swam out from the ocean
grew lags and started walking
if the apes climbed down from the trees
grew tall and started talking
and the stars fell out of the sky
and the tears flow into the ocean
now im looking for a reason why
you either set my world in emotion

chorus:

cos if your not rely here
and the stars dont even mater
and filled 2 the top and fell
that its all just a bunch of mater
cos if your not rely here
and i dont wana be either
i wana be next to you
black and gold black and gold black and gold
