Paint By Numbers

The Muffs

Come on and take little down
You're gonna know that I belong to you
And I know you're really not far away
I see you everydayWhen I smile at you and you smile too
Yeah, you know it makes me happy
Yeah, it makes me happy, you really make me happy
The only, you my honey
Isn't it a shame?You look so great, your really cool skin
I think I'm liking you
And I know you really just start too late
I see you everydayWhen you walk by me, I wish you would talk to me
Yeah, you know it makes me happy
Yeah, it makes me happy, it really makes me happy
The only, you my honey
Isn't it a shame?I'm a lamb, you really don't know it
But I see you everyday
Look at you, I'm looking at you and always
Ooh ooh oohYou know it makes me happy
Yeah, it makes me happy
You really make me happy
Yeah, yeah
