Even Now

Life.Church Worship

Open my eyes so I can see
Steady my heart so I can sing of Your praises
You are the only one I need
You are enough for, You are enough for meAnd even now, I see the clouds
A silver lining's breaking
My hope is found in You
My one defense, my confidence
The anchor to my soul
My hope is found in YouHelp me to trust in the unseen
Fill every space that's in between with Your promise
You are the strength that carries me
You go before me, You are surrounding me
And even now, I see the clouds
A silver lining's breaking
My hope is found in You
My one defense, my confidence
The anchor to my soul
My hope is found in You
And even now, I see the clouds
A silver lining's breaking
My hope is found in You
My one defense, my confidence
The anchor to my soul
My hope is found in YouI let go, You take control
And I let go, You take control
And I let go, You take control
Jesus, I let go and You take control
And even now, I see the clouds
A silver lining's breaking
My hope is found in You
My one defense, my confidence
The anchor to my soul
My hope is found in You
And even now, I see the clouds
A silver lining's breaking
My hope is found in You
My one defense, my confidence
The anchor to my soul
My hope is found in You!!!You are my hope

You're my strength
You are my everything
My hope is found in You
