Pluto

2 Skinnee J's

With depravity, I break lots of gravity
Blast past the atmosphere to the last frontier
I go boldly through space and time
The sky's the limit but they're limiting the skyI break orbit by habit, I ignite satellites
And leave rings round the planets
A flying ace like that beagle
Nevertheless this alien remains illegal'Cause their discovery dont cover me
The immigrants been left in the cold to grow old
And disintegrate, discriminate
Against the distant and disclaimers'Cause small minds can't see past Uranus
When I shun their race
'Cause that's just a phase
And my odyssey runs in 2001 waysAnd I can see clearly now like Hubbell
Shoved off the shuttle

Versus those who tried to ban itIf you don't agree

The sun is star like
Pluto is planetSo lend me all ears
And let me state my case
About all the types
Of satellites we must embrace'Cause like parents, great-grandparents

To deport its an offense
It's an upstanding member of the solar systemAbide the laws of Earth and make it a victim
Of Proposition, 187
When Pluto spawns a moon

If you demote this boat, remote to a goat
It's like taking ETs custody from Elliot
Support yours, clearly put cause, simply putPluto is a planet, Pluto
Pluto is a planet, Pluto
Pluto is a planet, Pluto
Pluto is a planet, PlutoDo it for the children
If not for yourself
Pluto is a
