If You're Wondering

Eisley

Cast about the night with your hands
And space, the space inside of our heads
And when the fighting fighter inside
And then with all the thrilling I hideAnd I was wanting you to show me
I was wondering all the time
But if the moon shines on you while you're sleeping
It will show you all that you're feeling insideYou buckle it all down
And spread the feel of gladness aroundAnd if I'm wondering then you show me
If you're wondering I know that
If the moon shines on you while you're sleeping
It will show you all that I'm feelingAnd I thought that I had all that, that I wanted
But, boy, was I wrong?
As for you, now I knowIf the moon shines on you while you're sleeping
It will show you all that I'm feeling
And if I'm wondering then you show me
If you're wondering I know
