

# Great

## Instruction

One, two, three, four  
It's the time of our lives  
It's the time of our lives  
So let's get started  
It's the time of our lives  
It's the time of our lives  
So join the party  
Let me in, let me in I got everything  
But I'm not wasting my time again  
Let me in, let me in I got everything  
But I'm not wasting my time again  
Let's get something  
(Let's get something)  
Let's get something straight  
You are gonna be nothing  
And I am so fucking great  
It's the fight of our lives, fight of our lives  
So make me want it  
I'm a part of the lies and I'll wait for the time  
Till you will buy it  
Let me in, let me in, I've got everything  
Let me in, got more then everything  
Let's get something  
(Let's get something)  
Let's get something straight  
You are gonna be nothing  
And I am so fucking great  
Let's get something  
(Let's get something)  
Let's get something straight  
You are gonna be nothing  
And I am so fucking  
(Great, great, great, great)(Great, great, great, great)  
And I am so fucking great  
(Come on, come on)  
And I am so fucking great  
(Come on, come on, come on)  
And I am so fucking great
