

Go On

George Strait

I'm so sorry, I keep interrupting, what were you gonna say?
You caught him cheatin', I don't blame you for walkin' away
I know where you're comin' from, it sounds like where I've been
Oh, there I go interrupting your story once againGo on, go on
You were sayin' how a fool can only fool you so long

It's true, it's so true

When they do you like that, what else you can do but go onOur conversation won't change nothin', but it's sure
nice to talk

With somebody who's been cut out of the same ol' cloth
You know how you said, happiness can't be found lookin' back
If you don't mind maybe we can talk a little more about thatGo on, go on
You were sayin' this is better than sittin' at home

It's true, it's so true

When they do you like that, what else can you do but go onEven when you see no reason to
Don't wait to live life 'cause it won't wait for youGo on, please go on
You were sayin' what don't kill us only makes us strong

It's true, that's so true

When they do you like that, what else can you do but go onJust go on
Life goes on, and on
