

She'd Be California

Rascal Flatts

She got the long blond hair, got the red sports car
And you know she's got the top laid back
Se got the movie star smile, got the sun kissed tan
Santa Barbara in summer, yeah, she feels like that
Hey, she's like a canyon drive in a midnight sky
Those eyes are deep enough to get lost
Her legs are palm tree tall, the way she walks
Like the heat on a runway when the cameras go off
She's small town from the country
She ain't big time but she could be
Hey, Hollywood never looked this good
Bright as the big screen burns
Hey, I bet drivin' down sunset
They're lookin' for a face like hers
Yeah, I've been all around this world
And she'd be California if California was a girl
She's like a red, red wine like a righteous wave
She's a day at the beach in Corona Del Mar
She's never been out there, felt the bright spot light
But she could have her own star on that dreamer's boulevard
I've driven down that coastline
And I've stood there under that big sign

Hey, Hollywood never looked this good
Bright as the big screen burns
Hey, I bet drivin' down sunset
They're lookin' for a face like hers
Yeah, I've been all around this world
And she'd be California if California was a girl
I'd chase that wild sunset
I'd be gone on my way, way out west
I've been all around this town
Hey, Hollywood never looked this good
Bright as the big screen
Hey, Hollywood never looked this good
Bright as the big screen burns
Hey, I bet drivin' down sunset
They're lookin' for a face like hers
I've been all around this world

And she'd be California if California was a girl
Now she'd be California, hey, California
She got the long blond hair, got the red sports car
You know she's got the top laid back
Se got the movie star smile, got the sun kissed tan
Santa Barbara in summer, yeah, she feels like that
