

# Motherless Child

## Clutch

Every last blind pulled when I walk down the street  
The only sound I hear is my tired heartbeat  
Well, sometimes I feel just like a motherless child, yeah  
Motherless child, yeah This place once had a name, the people once had faces  
In every town I find it's the same sad situation  
Sometimes I feel just like a countryless man, yeah  
Countryless man, yeah My father tried to break me, my mother, she tried to raise  
The county correct me from my wild ways  
My father tried to break me, my mother, she tried to raise  
The county correct me from my wild ways I once saw figures about a mile off  
So I waited in the woods until they were gone  
Sometimes I feel just like a wandering dog, yeah  
Wandering dog, yeah My father tried to break me, my mother, she tried to raise  
The county correct me from my wild ways  
My father tried to break me, my mother, she tried to raise  
The county correct me from my wild ways
