Dirty Little Secret

Amy Speace

My dirty little secrets not a secret anymore
I cant even keep it from myself
Everybodys secret looks the same behind closed doors
If I had only known before I fell
Can you even recognize the better part of me?
Under cover in disguise where I want to be
Anywhere but meMy dirty little secret spills out on the kitchen floor
As you pour your second cup of tea
I cant clean it up the way I always did before
On the sly so no one else can see
Can you even recognize the better part of me?
In my lies and alibis where I want to be
Anywhere but meIf Im good enough for you, am I good enough for me?Can you even recognize the heart inside my sleeve?
What is left for me to hide, whos left to believe?
Anyone but me
