Heaven Lost an Angel

Zendaya

I'm walkin' like a model
He watchin' like Movado
And we up like where the space is
Get down like where the bass is
Yo for real though, you know the deal though
You're so hot I'm so froze
Got my head in a chokehold
Cause baby tonightReal recognize real
And that's what you are
Like a hundred dollar bill
Cause baby, I've been waitin' to spend time with ya
[Time with ya]Somebody turn the lights down, For me
Don't take your eyes off of me
So keep your eyes all over me
Somebody turn the lights down, For me
The only place I need to be
Is right here with you next to me
Next to meAnd I know, I know, I know
Heaven lost an angel, Tonight
And I know, I know, I know,
Heaven lost angel 'cuz you're right here, yeah, right here
(Next to me, next to me, next to me)
Heaven lost an angel 'cuz you're right here, yea, right there
(Next to me, next to me, next to me)
Heaven lost an angel, TonightI hope you're the one, (If not)
If not I need 'em just like ya (Not I need 'em just like ya)
I know God was having fun
When he was spendin' all that extra time on ya
(Spendin' all that extra time on ya)Can somebody turn the lights down, For me
Don't take your eyes off of me
So keep your eyes all over me
Somebody turn the lights down, For me
The only place I need to be
Is right here with you next to me
Next to meAnd I know, I know, I knowHeaven lost angel 'cuz you're right here, yeah, right here
(Next to me, next to me, next to me)
Heaven lost an angel 'cuz you're right here, yeah, right here
(Next to me, next to me, next to me)
Heaven lost an angel, TonightI'm walkin' like a model

He watchin' like Movado
And we up like where the space is
Get down like where the bass is
Yo for real though, you know the deal though
You're so hot I'm so froze
Got my head in a chokehold
Love on overloadAnd I know, I know, I know
Heaven lost an angel, Tonight
And I know, I know, I know,
Heaven lost angel 'cuz you're right here, yeah, right here
(Next to me, next to me, next to me)
Heaven lost an angel 'cuz you're right here, yeah, right there
(Next to me, next to me, next to me)
Heaven lost an angel, Tonight!
