Waiting For This

Hanson

Without a doubt well you're ahead of your time
Let's go out on the town
Give it a piece of your mind
You've been going round and round in your head
So don't think twice
You'll end up worse than you've been
Oh
Cause I know that you've been thinkin' bout it
And I know they think you're out of your mind
All of this time
I know that you've been waiting for this
I know that you've been waiting so
Shout it out (shout it out) so everybody can hear
There's no need to rhyme it when the message is clear
You know I can't ignore
So what are you waiting for
You're trying hard not to show
But I know that you've been thinkin' bout it

And I know they think you're out of your mind
All of this time
I know that you've been waiting for this
Hey
Come on come on
Waiting for this heeeey
Can't figure out how you've made it this far
If you don't mind me sayin',
there's no sense in waiting so
Shout it out, shout it out
Shout it out, shout it out
You can't deny it, you can't deny it
Cause I know that you've been thinkin' bout it
And I know they think you're out of your mind
All of this time
I know what you've been waiting for
You can't deny
I know that you've been waiting for this
I know that you've been waiting for this
